

Hydro - India[®]

The "All Terrain" Handpump Solution

General Purpose Lever Operated Pump for Medium & Deep Boreholes

TYPICAL APPLICATIONS:

- Water supply
- Refurbishment of existing installations

PUMP:

- Lever Operated using standard India components
- All Corrosion Resistant Construction with Stainless Steel Body
- Elastic Rubber Hydraulic Piston (RHP) with up to 3 years Warranty guarantee
- Lightweight, even at 60 m, allows easy installation or removal without lifting gear
- Install up to 3 Pumps in the same Borehole
- Double the Delivery with minimum Effort

DRIVE HEAD:

- Well proven Hydraulic drive principle
- Sturdy frame construction for long life & easy use by all generations
- All fast wearing parts located at surface (changed in minutes by pump caretaker)
- Stainless Steel command cylinder
- Familiar discharge spout
- Galvanised steel head

MOUNTING:

- Water Tank in Galvanised Steel
- Excludes possibility of contaminating well
- Flexible, Corrosion & Wear Proof Pipes in HDPE
